UL’s IECEx Repair Facility Certification

UL now offering IECEx motor repair/rebuild facility certification

UL’s IECEx motor repair/rebuild facility certification provides independent assessments to determine that a service facility has appropriate equipment, competent staff, quality system, and operating procedures that then provides confidence the repair, overhaul or modification of motors complies with IECEx Scheme rules and requirements and IEC 60079-19.

Access 28 countries

Through its accreditation under the IECEx System, UL can save you time and expense by eliminating the redundancy involved in obtaining HazLoc certifications for multiple markets worldwide.

UL’s IECEx System accreditation allows UL to issue Certificates of Conformity (CoCs) for motor repair/rebuild facilities that can be accepted by other national certification bodies in countries participating under the System without the need for additional certification.

UL can now certify motor repair and rebuilding facilities of hazloc motors. Upon completion, UL issues you a certificate designating you as an official IECEx capable facility. When you use UL, you are guaranteed international recognition that you have:

- Relevant test equipment
- Experienced & Competent staff
- Authorized operating procedures
- Quality systems that meet IECEx requirements

Only one name to remember

UL is the first and only North American hazardous locations motor repair/rebuild facility approved by the IECEx System that can provide this certification solution for you.

IECEx System facts

The IECEx System applies to electrical equipment, facilities, and personnel as it applies to explosive atmospheres (Ex equipment). Under the System, UL and the other accredited certifiers evaluate equipment, facilities and personnel to the following international standards:

- IEC 60079, IEC 61241, IEC 61779, IEC 62013 and IEC 62086 series of standards.

Motor Repair facility service values to you, the UL customer

- Acknowledgement of capabilities in Motor Repair/Rebuilding
- International Acceptance
- Competitive Advantages
- Traceability back to the repair facility

Facilities that achieve and maintain an IECEx certificate will be registered on the IECEx online Certificate of Conformity Database and affix the IECEx logo to their certification reports. For additional details about the IECEx System, visit the System Web site at www.iecex.com.
