Applicant	
Address	
Type name	
Model number	
Serial number	
Manufacturer	
Test report number	
Standards	
Certification number	
Date of issue	
Result of the conformity assessment	

This certificate was issued according to the procedure in Article 17 of the RE Directive, 2014/53/EU. UL Japan, Inc. has been accredited as a Conformity Assessment Body to conduct overseas conformity assessment business specified in Article 2 paragraph (7) of the Law for implementation of the Mutual Recognition between Japan and Foreign States in Relation to Result of Conformity Assessment Procedure of Specified Equipment. i.e. UL Japan, Inc. has been authorized to act as Notified Body under the RE Directive 2014/53/EU. This certificate is outside the scope of MRA accreditation; however, this is issued in accordance with the ability of Conformity assessment Body (CAB).

Disclaimer: *These results are applied to samples actually tested by UL Japan, Inc. or acceptance laboratory by certification group. Those who received the certification provided all of the test samples for tested. UL Japan does not judge whether to select a sample or whether the provided sample was representative of other industrial products. For target products, UL Japan will not follow-up service or monitor products. The person who has been certified and / or the manufacturer should take responsibility for compliance with all applicable standards, specifications and requirements. The UL logo and mark should not be used in connection with the above model.*
