

BUILDING, LIFE SAFETY & SECURITY TECHNOLOGIES

Australian (AU) testing services

HELPING REDUCE TIME TO MARKET

Entering a new market can be a slow, expensive and sometimes frustrating process, especially when time to market is vital for a successful product launch. To help customers streamline their pathway to Australia, UL now offers AU testing services for a range of life safety products, that supports products entering the Australian market by conducting all tests in-house coupled with short lead times.

Now, customers have the ability to share UL test data with certification bodies in Australia based on data from our accredited in-house testing.

Customers advantages of UL testing to the AS standards:

- Faster access to markets through quicker turnaround times
- A single point of contact to bundle certifications for multiple geographies, especially for products destined for both Australia and the European due to the similarities in both requirements, and, ultimately, reduced time to both markets
- UL owns all of its testing facilities and conducts all testing in our labs

AU Testing

UL currently offers testing in our facilities in the United States and can now test products to the following AU standards :

- **AS 3786** - Smoke alarm standard
- **AS 7240.2** – Fire Detection and Alarm Systems, Control and Indicating Equipment
- **AS 7240.4+A1** – Fire Detection and Alarm Systems, Power Supply Equipment
- **AS 4428.3** – Fire Detection, Warning, Control and Intercom Systems - Control and Indicating Equipment, Fire Brigade Panel
- **AS7240.5** - Fire detection and alarm systems Point type heat detectors
- **AS7240.7** - Fire detection and alarm systems Point-type smoke detectors using scattered light, transmitted light or ionization
- **AS7240.17** - Fire detection and fire alarm systems Short-circuit isolators
- **AS7240.18** - Fire detection and alarm systems Input/output devices

The AU Standards in the below comparison chart indicate the equivalent UL and EN Standards:

AS STANDARD	COMPARABLE UL STANDARD	COMPARABLE EN STANDARD
AS3786	UL 217	EN 14604
AS7240.5	UL521	EN 54-5
AS7240.7	UL268	EN 54-7
AS 7240.2	UL 864	EN54-2
AS 7240.4		EN54-4
AS 4428.3		EN 54-17
AS7240.17		EN 54-18
AS7240.18		

We are always looking for opportunities to expand our services to meet your needs.
